**To:** Edlund, Carl; Blevins, John; Phillips, Pam; Gilrein, Stephen  
**Cc:** Honker, William; Watson, Jane; Martinez, Maria  
**Subject:** COE/EPA June 30th meeting: draft agenda

Please note, in preparation for the June 30<sup>th</sup> meeting with COE there is a pre-brief for Ron/Sam on June 25 at 10:00 am. Maria Martinez and Jane Watson have coordinated meeting topics with the COE as well as with your staff. WQ will create a final draft agenda in the next couple of days but wanted to share the following with you for now.

USACE/EPA Meeting 2<sup>nd</sup> Draft Agenda  
June 30, 2015

1. Clean Water Rule – Next steps
2. Texas Water Plan, NEPA, and CWA 404 permit requirements

9672022

- a. Designation as a cooperating agency early in the project scoping phase of NEPA process
  - b. Potential for merger of the Environmental Impact Statement and CWA 404 permit requirements
3. Discussion of E.O. 11988 Flood Plain Management – the revised guideline for implementation went out for public comment in January 2015, but it may be useful for the Agencies to indicate how this E.O. may impact them. Previous flood plain management strategy dealt with a 100 year event, whereas now there are discussions about a 500 year event.
  - a) What is the impact on cost?
  - b) Will it impact the ability of projects being considered for construction, etc,?
4. Each Agency may want to discuss programs that they have implemented during the past three years or so to address climate issues (drought, floods. etc)
5. Corps of Engineers support for the San Jacinto River Waste Pits Superfund Site (30 minutes)
  - a) COE perform hydrodynamic & sediment modeling of the San Jacinto River to inform EPA's selection of a final cleanup approach (in progress)
  - b) COE evaluate containment cap effectiveness & design requirements as well as dredging "Best Management Practices" for the site (in progress)
  - c) COE provide construction oversight support for implementation of the selected remedial action (will require an amended IAG)
6. Corps of Engineers/EPA's Brownfields Program Partnership (15 minutes)

David F. Garcia  
Deputy Director  
Water Quality  
Protection Division
